

Incident Report

Incident reporting is an integral component of the Board's risk assessment processes. The Board's capability to assess risks is a requirement under the *Phylloxera and Grape Industry Act (1995)*.

Process for the management of incident reports:

- An assessment is undertaken and an investigation will be conducted.
 - Where there has been a breach of regulatory standards, State authorities will be informed.
 - Incidents will be reviewed by the PGIBSA Risk and Audit Committee, which will make recommendations to the Board.
-

Details of the Incident

Date incident happened - ___ / ___ / ___

What happened and when?
